....

S.T.A.B.L.E: Sugar, Temperature, Airway, Blood pressure, Lab work, and Emotional support

Stabilization is a team effort! Therefore, any health caregiver involved with post-resuscitation and/or pre-transport care of sick newborns would benefit from the S.T.A.B.L.E. Program Learner/Provider course, including:

Physicians: Pediatric, ED, Family Practice, and Obstetric physicians including Residents

Nurses: RNs working in L&D, Postpartum, Nursery, ED; Nurse Midwives, Licensed Practical Nurses, and Nursing Assistants.

Others: Respiratory therapists, Pre-hospital providers – Emergency Medical Technicians and Paramedics

Approved for 8.0 Nursing Contact Hours: To successfully complete this session to receive contact hours, you must attend the entire session and pass the post-test with a score of 75%.

Before attending you must complete:

• The Pretest: The pretest will be sent out three days prior to the class date. If you do not receive it, contact Elva Reyes at the Northwestern Perinatal Center at **ereyes@nm.org** .

Bring with you to class:

• Completed Pretest Answer Sheet.

• Learner Manual (6th edition, published 2013), each participant must have their own book. You can borrow the book from your unit, but each student must have their own in class.

You cannot stay for class without the book. Books may be purchased through www.AAP.org or www.stableprogram.org

* Cost and pre-class requirements are subject to change pending the 7th edition updates expected mid-2024. All changes will be communicated as soon as they are released.
