

EFM Certification Preparation Course

Presented by Carol Burke, MSN, APRN-CNS, RNC-OB, C-EFM

The National Certification Corporation (NCC) Electronic Fetal Monitoring Subspecialty Certification is a competency-based examination designed for licensed health care professionals in the US and Canada who utilized electronic fetal monitoring in the care of intrapartum and antepartum obstetrical patients. Utero-placental physiology, pattern recognition and intrauterine resuscitation interventions are central to knowledge and use of this technology.

Prior to the class, you are required to apply for the certification exam at www.nccwebsite.org

Proof of examination application must be presented at the first class.

**Monday, April 15, 2024 from 0800-1630
or
Monday, October 7, 2024 from 0800-1630**

Registration can be completed by [clicking here](#) or
scanning the QR code.
